Next.js & React - The Complete
Guide (incl. Two Paths!)

Ernani Ávila

Software Engineer | Front End | React | NextJs | React Hooks |
HRTech
Florianópolis, Santa Catarina, Brazil

Summary

I'm a Front-end Developer with experience dating back to 2018. My
expertise lies in technologies such as HTML, CSS, and JavaScript,
and I have a deep understanding of React.js and Next.js as my
preferred frameworks.

As a freelancer, I have successfully worked on projects using
WordPress and created institutional applications using Next.js with
Chakra UI. I have also been involved in RH Tech projects, utilizing
technologies like Next.js, React.js, Chakra UI, React Query, Axios,
and more.

With strong interpersonal skills, I have been able to lead teams when
required.

Currently, my focus is on Backend development, as I strive to
become a Fullstack Developer. Currently, studying NestJS, Postgres
and Prisma.

If you are seeking a professional with the qualifications mentioned
above, feel free to send me a message. If I am not the right fit for
your requirements, I would be happy to recommend someone
from my trusted network. Let's connect and explore potential
opportunities!

Experience

zoozTech
Full Stack Engineer
October 2023 - Present (2 months)
Brazil

PodCodar
Mentor
September 2023 - Present (3 months)
Brazil

Med Glow
ReactJS Frontend Developer
April 2023 - May 2023 (2 months)
Brazil

During my professional experience, I played a fundamental role in optimizing the operational flows of a tool, using ReactJS to enhance performance. Additionally, I took responsibility for system maintenance, ensuring smooth operation.

I would also like to highlight my contribution to the development and implementation of efficient document printing tools, simplifying the process for users to generate physical copies quickly and intuitively.

Furthermore, I led the creation of CRUDs (Create, Read, Update, Delete) to manage the flow of procedures and records, providing users with a simplified and intuitive experience in handling and visualizing information.

My skills in optimization, maintenance, tool development, and CRUD management resulted in significant improvements in system efficiency and usability, contributing to the success of the project and user satisfaction.

devsAcreditar
Frontend Developer ReactJs / NextJs
May 2021 - March 2022 (11 months)
Remote

During my time at devsAcreditar, I gained extensive experience in creating interfaces using ReactJs and NextJs, as well as utilizing frameworks such as ChakraUI, React Query, Yup, Formik, Axios, and more.

I also took on leadership responsibilities when needed, successfully managing a team by assigning tasks and providing feedback to each team member. Additionally, I contributed ideas and feedback that led to significant improvements in the application's features, which were implemented and released during my tenure.

Galeria de Gravura
IT Support Technician
May 2015 - January 2019 (3 years 9 months)
Florianópolis e Região, Brasil

I was responsible for diagnosing and resolving software and hardware issues.
I gained experience in developing applications using WordPress, ReactJs,
and NextJs. Additionally, I provided assistance in financial management in
WordPress, including eCommerce integration.

Self Employed
Computer maintenance and support
January 2010 - February 2018 (8 years 2 months)
Florianópolis e Região, Brasil

I performed computer maintenance, which included diagnosing and solving
software and hardware issues, as well as building computers from scratch. I
also assessed customer needs to construct custom computers tailored to the
specific requirements of their work, ensuring they had the best tools at their
disposal.
